

iLiving

Description:

Are you moving to a new place or planning to rearrange your home?

Then *iLiving* should be your first fixture. Just take a picture of your bed- or living-room, kitchen or garden and see how furniture would look like in your own, new living environment.

All you need to do is follow these few steps:

- 1) Take a picture within the app of the area you want to re-
- 2) Select furniture models from the gallery and integrate them into the picture
- 3) Move / rotate / adjust the size of the furniture pieces by tapping / turning and pinching

We wish you a lot of fun!

Features:

- +25 furniture models included
- Shake to shuffle the added models for a new random lay-out
- Screenshot mode available to share your home's new look with friends & family
