

# Network and System Administrator - Munich

According to Gartner Inc., Augmented Reality is one of the Top 10 strategic IT technologies of our time. And Juniper Research forecasts a \$1.5 billion revenue stream by 2015. But AR is even more than that. We are at the dawn of a new era. The virtual and the real world are becoming one. With Augmented Reality technology we can access, understand and enjoy digital data, exactly where we expect it to be and tailor it to our liking. AR is the user interface of the future.

With more than 10 years of experience, 500+ projects, more than 450 business customers, an international partner network, numerous federal, national and international research projects and a comprehensive, patented product portfolio, metaio is a pioneer and leader in this game changing technology field. Based on the Unifeye platforms we connect any object to additional, digital information. Our vision is the seamless and easy integration of the virtual into the real world.

metaio is a self-funded and fast growing technology company. Founded in 2003, we currently employ more than 75 team members in two different locations. The company is headquartered in Munich (Germany) with a subsidiary in San Francisco (U.S.A).

For our Munich operations, we are seeking a Network and System Administrator.

Your tasks include the maintenance, management and extension of our IT infrastructure in a highly flexible and globally growing company.

## Task profile:

- Administration and configuration of company network infrastructure (LAN, WLAN, WAN/VPN) including switching, remote access and DMZ.
- Administration and extension of the existing telephone system including VoIP, DECT, ISDN.
- Maintenance of security systems including Firewall, IPS, Virus scanning, etc.
- Configuration and maintenance of Microsoft Windows Server infrastructure including the company Windows domain and Exchange infrastructure, Microsoft CRM and backup servers.
- Maintenance and development of Linux server infrastructure (e.g. Apache, Samba, MySQL, cronjobs).
- Management, organization and support of installed client systems (Windows/MacOS workstations, PCs, laptops) including system configuration, setup and maintenance.
- Fine tuning server and network systems and infrastructure including review, recommendation and resolving any network and system administration issues.
- Management of software license portfolio.
- Cooperation with and management of external service providers.
- Creation and maintenance of technical documentation regarding the IT infrastructure.
- Collaboration with the development and sales department in a global and multi-national team.

**Qualifications:**

- Qualifying degree (e.g. degree as “Fachinformatiker (Systemintegration) or Systeminformatiker or IT Systemelektroniker” or university degree in computer science) or equivalent technical degree
- Preferably 3 years of work experience in the field of network and system administration
- Good to very good knowledge in network and system administration, including:
  - Windows server (2008), AD, Exchange, Microsoft SBS, Microsoft CRM, Sophos Enterprise
  - Linux server, Apache, Samba, MySQL
  - Client systems: Windows XP, Vista, 7, MacOS X 10.6/10.7
  - Firewall, VPN, LAN/WAN, DMZ, TCP/IP, Switching, Routing, DNS, DHCP
  - Telephone system (VoIP, DECT, ISDN)
- Experience in cloud computing configuration/services, PHP and Java/Tomcat would be a plus
- Willingness to continuously learn and improve the own skill
- Strong communication and organization skills
- Strong service- and customer orientation
- Analytic and strategic abilities
- High flexibility and teamwork
- High motivation and personal engagement
- Strong English skills

**What we offer:**

- Potential for experience and opportunities in a growing, cutting-edge industry
- Engaging and challenging responsibilities and day-to-day tasks with a hand-picked multi-national team
- Competitive salary and benefits

If you are interested in working in an exciting and multi-disciplinary work-environment, are comfortable with a dynamic tech-driven atmosphere and are looking for good future career opportunities, then metaio may be the place for you. We are looking forward to your application.
