

Intern/Master Thesis Application Development - Munich

According to Gartner Inc., Augmented Reality is one of the Top 10 strategic IT technologies of our time. And Juniper Research forecasts a \$1.5 billion revenue stream by 2015. But AR is even more than that. We are at the dawn of a new era. The virtual and the real world are becoming one. With Augmented Reality technology we can access, understand and enjoy digital data, exactly where we expect it to be and tailor it to our liking. AR is the user interface of the future.

With more than 10 years of experience, 500+ projects, more than 450 business customers, an international partner network, numerous federal, national and international research projects and a comprehensive, patented product portfolio, metaio is a pioneer and leader in this game changing technology field. Based on the Unifeye platforms we connect any object to additional, digital information. Our vision is the seamless and easy integration of the virtual into the real world.

metaio is a self-funded and fast growing technology company. Founded in 2003, we currently employ more than 75 team members in two different locations. The company is headquartered in Munich (Germany) with a subsidiary in San Francisco (U.S.A).

For our Munich operations, we are seeking work students, Bachelor/Master thesis students in the area of Application Development in the field of Augmented Reality. Depending on your appropriate interests or your main focus, we offer numerous possibilities for your own projects and studies in GUI-design, 3D-design, Computer Vision and Application Development.

Task profile:

- Cooperation in customer projects
- Support of the development team

Qualifications:

- Studies of computer science or similar technical studies
- Ability to work individual as well as in a team
- Good to excellent programming skills
- Good to excellent English language skills both written and spoken
- Personal engagement, team spirit and good communication skills
- Structured working method
- Good communication skills

What we offer:

- Good development potentialities in a growing company
- Challenging and responsible tasks in a multi-national team

If you are interested in working in an exciting and multi-disciplinary work-environment, are comfortable with a dynamic tech-driven atmosphere and are looking for good future career opportunities - we are looking forward to your application.
